## American Coated Products

USA MADE LAMINATES, MOUNTING FILMS, AND ADHESIVES FOR THE DIGITAL IMAGING MARKET.

### AMERICAN COATED PRODUCTS

For over 20 years, American Coated Products has been providing innovative solutions in high quality adhesive coated, top coated, and specialty laminated products to industries worldwide. They have utilized their expertise to develop a broad based and unique line of PSA products for the digital imaging market.

As a leader in this industry, American Coated Products wants the opportunity to serve you with flexibility, reliability, quality, and value.

#### ACP's PSA LAMINATE FILMS - High quality films for digital print protection.

- ✓ Four finishes: Gloss, Lustre, Matte, and Textured Crystal.
- ✓ PVC construct for long lasting durability.
- ✓ Clear, water-based acrylic adhesive offers superior adhesion.
- ✓ High tack, fast bonding adhesive adheres to all popular printed media.
- ✓ Suitable for both outdoor and indoor usage due to UV A & B absorption.

#### ACP MOUNTING FILMS - High tack, aggressive permanent and removable adhesive coated mounting films.

- ✓ Permanent mounting of digitally printed media onto a variety of substrates including foam PVC materials.
- ✓ White opaque and clear films coated both sides with a solvent-free, age resistant and permanently elastic acrylic adhesive.
- ✓ Available in two flavors; 2 side coated w/permanent adhesive, and 1 side coated permanent and 1 side coated with a removable adhesive.

#### ACP WINDOW ADHESIVES - Unique adhesives for window graphics adhesion.

- ✓ Innovative transferrable adhesives for perforated and non-perforated graphics offer adhesive properties at economical prices.
- ✓ Dot patterned adhesive (Dottie) transfers adhesive only to the solid areas of perforated prints eliminating dust collecting adhesive in open areas.
- ✓ Superior window adhesion offered by Window Stick, a clear carrier film coated 1 side with a permanent adhesive and 1 side with a removable adhesive.
